REPLY TO
ATTN OF: Q43

SUBJECT: Kruh/Deavours Manuscript, "To Keep a Secret"

TO: DISTRIBUTION

1. The preliminary reviews show great concern with the Kruh/Deavours manuscript. I have notified Prof Deavours that we are concerned and told him we would like more time to review the paper. There is a great potential that we will send someone to them to request withdrawal of the paper or major modification.

2. In order to be prepared to present our case to the Seniors and the Director, we should have a technical position. Therefore, I would appreciate your assistance in identifying those portions of the manuscript which we want to "fall on our sword" over. It may be useful to hold a roundtable meeting to discuss the matter. I will set up something in a week or two.
